EDUCATION

Bahra University

Bachelor of Technology , Computer Science and Engineering

Solan , Himanchal Pradesh

Aug 2019 – Aug 2023

Jawahar Navodaya Vidyalaya (Class XII)

PCMC

Phodong , North Sikkim

March 2017 – May 2018

EXPERIENCE

Software Engineer Intern

Hexaware Technologies

Jan 2022 – April 2022

Mumbai

- * Proficient in Agile methodologies, actively participating in sprint planning, stand-up meetings, and retrospectives to ensure project delivery within timelines.
- * Strong communicator, adept at presenting project updates, discussing technical solutions, and articulating ideas within cross-functional teams to facilitate collaboration and problem-solving.
- * Experienced in the project lifecycle, from planning and scoping to testing and deployment, ensuring alignment with project goals and objectives for successful delivery.

Associate Software Engineer

Bebo Technologies

Jan 2023 – Aug 2023

Chandigarh

- * Developed RESTful APIs using Java Spring Boot for seamless client-server communication, ensuring interoperability and scalability.
- * Proficient in database management with PostgreSQL and MongoDB, encompassing schema design, querying, and optimization to enhance data integrity and performance.
- * Implemented caching mechanisms using Redis server to optimize web application performance, reduce response time, and enhance user experience.
- * Engaged in continuous learning through workshops, seminars, and online courses in Java Spring Boot ecosystem and related technologies to stay abreast of industry trends and best practices, fostering professional growth and innovation.

All India PACS Computerisation

Vinsys Technologies

April 2024

Pune

- * Implement stringent security measures to protect sensitive financial and member data.
- * Collaborate with UX/UI designers to create user-friendly interfaces suitable for PACS staff, many of whom may not be highly tech-savvy.
- * Develop training materials and conduct workshops for PACS staff to ensure smooth adoption of the new system.
- * Implement rigorous testing procedures, including unit tests, integration tests, and user acceptance testing, to ensure software reliability.
- * Got to work closely with NABARD officials and learn about cooperation societies in India.
- * Also had some insights about finance and accounting.

IRAD(Integrated Road Accident Database

National Informatics Centre(NIC)

August 2024

Sikkim

- * Extensive experience in managing and implementing the Integrated Road Accident Database (IRAD) project at the district level.
- * Expertise in deploying technology-driven solutions for road accident data collection and management.
- * Proficient in handling GIS-based applications, mobile apps, and digital reporting tools used in the IRAD system.
- * Strong experience in liaising with government agencies, law enforcement, and transport departments.

PROJECTS

Student Management System | *Java , Springboot , Apache Tomcat , PostgreSQL*

March 2023 – Jul 2023

- Developed a comprehensive student management system using Java Spring Boot, PostgreSQL, and Redis technologies, ensuring robustness and scalability.
- Implemented user authentication functionalities using Java to ensure secure access to the system, enhancing data security.
- Utilized PostgreSQL for database management, ensuring data integrity and reliability in student records, adhering to industry standards.
- Integrated Redis for caching mechanisms, optimizing system performance and response times, enhancing user experience.
- Designed and developed the backend architecture using Spring Boot, facilitating efficient data management and manipulation, ensuring code maintainability.

ERP System | *Java, Springboot , PostgreSQL*

April 2024

- Contributed to the development of ERP system focused on the digitalization of cooperative societies in India.
- Collaborated with stakeholders to gather and analyze requirements for digital transformation initiatives.
- Planned for the seamless integration of the ERP system with existing systems and potential future enhancements.
- Ensured that the digital platform was accessible and responsive across various devices, enhancing user experience.
- Identified potential risks associated with digitalization and developed strategies to mitigate them effectively.

TECHNICAL SKILLS

Languages: Java, C++ , SQL (Postgres , MySQL), JavaScript , HTML , CSS

Frameworks: React, TailwindCSS

Developer Tools: Git, Github , VS Code , Eclipse
