PROFESSIONAL SUMMARY

“I’m a Full Stack Developer with a passion for crafting scalable, responsive web applications. With hands-on experience in Java Spring Boot, React, and PostgreSQL, I build solutions that solve real-world problems. Currently seeking opportunities to contribute to dynamic development teams focused on innovation and user experience.”

EDUCATION

Bachelor of Technology, Bahra University (8.01 CGPA) 2019–2023

TECHNICAL SKILLS

Frontend	HTML, CSS, JavaScript, React.js, Next.js, Tailwind CSS
Backend	Node.js, Express.js, Java, Spring Boot, MongoDB, PostgreSQL
Dev Tools	VS Code, Cursor, Git, GitHub, Postman
Others	REST APIs, Redis, Agile, MVC, Responsive Design

PROFESSIONAL EXPERIENCE

Associate Software Engineer Jan 2023 – Aug 2023
Bebo Technologies, Chandigarh, India

- Built scalable and secure RESTful APIs using Java Spring Boot, improving interoperability by 40%.
- Managed complex relational and non-relational databases using PostgreSQL and MongoDB. Reduced page load time by 40% using lazy loading
- Participated in Agile sprints, technical reviews, and design sessions for ongoing software improvement.

Software Implementation Specialist, PACS Computerization Nov 2023 – May 2024
Vinsys Technologies, Pune, India

- Deployed and supported ERP modules for 30+ PACS centers; ensured smooth adoption through user training.
- Collaborated with NABARD to understand financial workflows and implement tailored digital solutions.
- Improved data security measures across systems to align with cooperative sector compliance standards.

District Resource Manager, IRAD Aug 2024 – Present
National Informatics Centre, Sikkim, India

- Spearheaded district-level rollout of IRAD platform for automated accident reporting and analysis.
- Trained law enforcement and transport staff on GIS-based tools and mobile app usage.
- Liaised with central and state agencies for seamless inter-departmental coordination.

PROJECTS

ERP System for Cooperative Societies ReactJS, PostgreSQL

- Developed digital ERP modules for finance, accounting, and member management across 50+ cooperatives.
- Collaborated with stakeholders for scalable and responsive application planning.
- Designed risk mitigation workflows, improving user trust and adoption.

Student Management System

Java, Spring Boot, Redis, PostgreSQL

- Built robust backend with Spring Boot and PostgreSQL for student CRUD operations.
- Integrated Redis caching to reduce query response times by 50%.
- Implemented secure authentication and data encryption protocols.
